VII. Type of Regulated Waste Activity (only mark the following sections that apply)**A. HAZARDOUS WASTE ACTIVITIES**

1. Generator of Hazardous Waste (quantity generated per month or accumulated at any one time) (Choose only one of the following three categories.)

- ☒ a. LQG: Greater than 1,000kg (2,200 lbs./mo.) of non-acute hazardous waste; or
- ☐ b. SQG: 100 to 1,000kg/mo (220-2,200 lbs./mo.) of non-acute hazardous waste; or
- ☐ c. CESQG: Less than 100kg/mo (220 lbs./mo.) of non-acute hazardous waste

In addition, indicate other generator activities. (Mark all that apply)

- ☐ d. United States Importer of Hazardous Waste
- ☐ e. Mixed Waste (hazardous and radioactive) Generator

For Items 2 through 6, mark all that apply.

- ☐ 2. Transporter of Hazardous Waste
- ☐ 3. Treater, Storer, or Disposer of Hazardous Waste (at your site). Note: A hazardous waste permit is required for this activity.
- ☐ 4. Recycler of Hazardous Waste (at your site). Note: A hazardous waste permit may be required for this activity.
- ☐ 5. Exempt boiler and/or Industrial Furnace
- ☐ a. Small Quantity On-Site Burner Exemption
- ☐ b. Smelting, Melting, and Refining Furnace Exemption
- ☐ 6. Underground Injection Control

B. UNIVERSAL WASTE ACTIVITIES

1. Large Quantity Handler of Universal Waste (accumulate 5,000kg or more) [refer to Missouri regulations to determine what is regulated]. Indicate types of universal waste generated and/or accumulated at your site. (Mark all boxes that apply):

	GENERATE	ACCUMULATE
a. Batteries	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. Lamps	<input type="checkbox"/>	<input type="checkbox"/>
c. Pesticides	<input checked="" type="checkbox"/>	<input type="checkbox"/>
d. Thermostats	<input type="checkbox"/>	<input type="checkbox"/>

☐ 2. Destination Facility for Universal Waste. Note: A hazardous waste permit may be required for this activity.

C. USED OIL ACTIVITIES (MARK ALL BOXES THAT APPLY.)

1. Used Oil Transporter - Indicate Type(s) of Activity(ies)

- ☐ a. Transporter
- ☐ b. Transfer Facility

2. Used Oil Processor and/or Re-refiner - Indicate Type(s) of Activity(ies)

- ☐ a. Processor
- ☐ b. Re-refiner

☐ 3. Off-Specification Used Oil Burner

4. Used Oil Fuel Marketer - Indicate Type(s) of Activity(ies)

- ☐ a. Marketer Who Directs Shipment of Off-Specification Used Oil to Off-Specification Used Oil Burner
- ☐ b. Marketer Who First Claims the Used Oil Meets the Specifications

VIII. Description of Regulated Waste Activity (Use Additional Sheets if Necessary)

A. Waste Codes for Federally Regulated Hazardous Wastes. Please list the waste codes of the Federal hazardous wastes handled at your site. List them in the order they are presented in the regulations (e.g., D001, D003, F007, U112). For waste codes see 40 CFR 261.20 - 261.24 or 40 CFR 261.31 - 261.33. Use additional page if more spaces are needed for waste codes.

D000	D016	F001	P004	U061		
D001	D031	F002	P050			
D003	D032	F003	P051			
D013	D099	F005	P071			
D014			P089			
D015						

B. Waste Code for State-Regulated (i.e., non-Federal) Hazardous Waste. Please list the waste codes of the State-regulated hazardous wastes handled at your site. List them in the order they are presented in the regulations. Use additional page if more spaces are needed for waste codes.

Addendum

Emergency Coordinator

The Emergency Coordinator is on call 24/7 or will delegate his responsibility and authority to other properly trained personnel. During normal business hours, the Emergency Coordinator is notified by telephone, PA system, personal cell phone, or in person of any emergency. During non-business hours the Emergency Coordinator is notified by personal cell phone and can respond to the Technical Center within a short period of time.

The fire alarm, security alarms, and temperature alarms are monitored 24/7 by the Department of Homeland Security's Federal Protection Service. They notify the Emergency Coordinator immediately of any emergency or call the alternate backup personnel if he is not available.

The Emergency Coordinator is completely familiar with the building layout, including equipment, chemicals, hazardous wastes, and personnel. The incumbent has a B.S. degree in chemistry and has taken courses in OSHA training, environmental hygiene, chemical hazards, environmental management systems, hazard communication, hazardous waste management, environmental compliance, OSHA compliance, OSHA auditing, and emergency medical training.

Larry Mullins
ARTD/RESP
U.S. Environmental Protection Agency
901 N 5th Street
Kansas City, Kansas 66101

Mr. Larry Mullins,

There is a hazardous waste and excess chemical storage building located at the U.S.D.A., Grain Inspection, Packers and Stockyards Administration's Kansas City Technical Center, on 10383 N Ambassador Drive, Kansas City, Missouri, 64153. This building is more than 10 feet from a road or street and conforms to the safety features listed below.

The walls construction is cement cinder blocks covered by a brick outside wall, which have a burn time of at least 4 hours. The door is a steel door with an automatic door closure system and has a fire rating of 2 hours. The building is equipped with an automatic sprinkler system, which links to an alarm system that notifies the Kansas City Fire Department and the Federal Protective Service in the case of a fire.

Together with the above information and a recent inspection of the building on August 24, 2006, I approve of this building being use for the storage of ignitable wastes.

Sincerely,

Phil Pittman
